

Mont Blanc Quartzite

Slab Selection & Specification Checklist

A buyer-facing guide to visual selection and the information to confirm with the actual slab supplier.

MONT BLANC QUARTZITE / FULL-SLAB VISUAL REFERENCE

Illustrative appearance only. Ask for current photos and IDs of the exact slabs offered.

Read the slab, not only the trade name

Supplier descriptions range from a creamy white field with grey/taupe veining to fine-grained white with subtle grey-green veining. These are descriptions of their own listings, not a promise that every Mont Blanc lot will match. Compare full-face photos at the same viewing scale.

WHAT CURRENT SUPPLIER LISTINGS SHOW

ARIZONA TILE

Creamy white with grey/taupe veining. Its listing shows polished or satin, and 2 or 3 cm slabs.

BRACHOT

Fine-grained white with subtle grey-green veining. Its listing shows polished or Letano finishes.

ROCK MILL

Quarried blocks vary. The listing asks buyers to confirm current stock, actual size and finish.

BEFORE YOU REQUEST A QUOTE

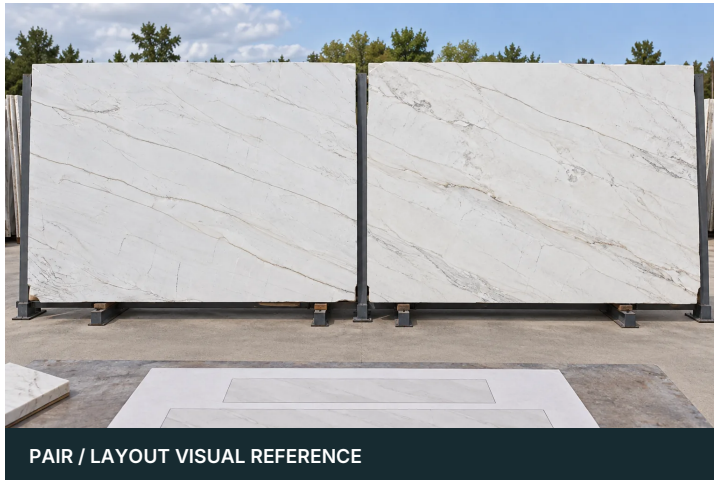

- ☐ Confirm supplier, source, block, lot and slab IDs.
- ☐ Request photos of every actual slab face.
- ☐ Ask for usable dimensions and selected finish.
- ☐ Agree on cut direction, seams and approvals.

SPECIFICATION BOUNDARY

This guide is not a supplier technical data sheet. For performance-critical work, request the chosen supplier's current test report, fabrication guidance and care instructions for the exact material and finish.

Approve the actual slabs

Complete this sheet with the supplier or fabricator before committing to a cut plan or purchase order.

Illustrative pair. Verify the offered slab sequence and proposed cuts.

REQUEST PACKAGE

- ☐ Dated slab photos + IDs
- ☐ Usable dimensions
- ☐ Finish + treatment details
- ☐ Cut / seam drawing
- ☐ Current quote + lead time

QUOTE & APPROVAL WORKSHEET

Record the item actually being purchased; leave no identity or layout detail to the sample alone.

PROJECT / APPLICATION

IF YOUR BRIEF IS PRIMARILY THE LOOK

Sintered stone may offer a similar white-and-grey look. Specify it separately: compare the full-face pattern, finish, thickness and application before approval.
